I responded to 1749 Coreywood Circle and deployed my K9 partner "Tag". We conducted an article/area search around the south side of the residence. We started the search approximately 20 feet from the back door of the target residence. We search in between the buildings and roadway for approximately 200 feet to the west. We then crossed over Blountstown highway to the south. Working south for approximately 150 feet and then turning eastbound. We worked eastbound for approximately 500 feet along the open areas in between buildings and the roadway. We then crossed back over Blountstown highway to the north. We worked back towards the target residence which was approximately 300 feet. We were unable to locate any evidence of value.
